#### 公司介绍:

芜湖世航平台车零部件有限公司。 位于安徽省汽车工业基地芜湖县机械工业园, 公司前身是做国 内外工业机械配件,2012年给与深圳达航公司提供数架平台车升降台零部件(铝合金驱动轮),其 后更开发其它平台车零部件, 主要做国内售后 和 维修市场替代零部件,

自 2017 年起我们 与 易达科技(香港)有限公司达成合作协议,正式成为易达科技(香港)有限 公司的经销商 和 战略合作伙伴, 易达科技(香港)有限公司主要生产世界专利复合尼龙滚轮, 用 于机场平台车 和 货物转运服务台.

此产品深受香港国际机场客户的好评。现时我们公司可以提供:复合尼龙滚轮、铝合金滚轮与 铝合金驱动轮支架组装一起销售,

#### Corporation profile:

Wuhu WorldAir Loader Parts Co., Limited automobile machinery industrial park industrial base. The predecessor of the company is making machinery parts industry for home and abroad. We provides the Aluminum housing to Shenzhen Techking Company for several Loaders platform since 2012. Then we to develop the other several parts for Loader, mainly to do domestic market of maintenance service replacement.

We had agreement to become a Dealership and Strategic partners with EASYROLL Technology(Hong Kong) Limited from 2017. EASYROLL Technology mainly produces is Composite nylon roller for world patent's product for airport Loaders and Cargo transfer desks.

This product has been well received by Hong Kong International Airport customers. Now our company can provide Composite nylon rollers, Aluminum rollers with Aluminum housing assemble together.

### 产品展示 / Product display

#### 请放心使用这产品, 我们委托第三方做了测试

在中国 和 香港发生了一系列历史性的铝合金轮壳,经常容易因在运作时引致碰撞而爆裂的故障情况,因 此本公司决定寻求更好的产品来改善工作寿命,并避免延长设备停机时间.

我们已经开发了这样的产品 和 性能证明, 我们委托国际知名测试公司"輝固土力工程及檢測有限公司"附上的冲击测试报告. 与中国 和 美国领先的装载机制造商的铝合金轮壳样品进行了对比测试, 并清楚地展示了使用我们产品的好处.

附上测试报告以供参考, 我们欢迎您提出宝贵意见.

#### Don't worry using this product, we commissioned a third party to do the test

Following a number of historical Helical Roller Housing failures in China and Hong Kong a decision was taken to seek a better product to improve working life and avoid extended equipment downtime.

We have developed such a product and as proof of performance we commissioned the attached impact test from the internationally renowned testing company "Fugro Technical Services Limited – Material Lab Division". A comparison test with sample housings from the leading loader manufacturer in both China and United States was undertaken and clearly demonstrates the benefits of using our product.

Please find attached the test report for your reference, and we would welcome your valuable opinions.

### 只有专利 "复合尼龙滚轮" 值得你信任 The patented "Composite Nylon Roller" you can trust

事实上, 传统的铝合金滚轮在雨天操作过程中较容易失去控制, 装载机失去了主要传送的工能. 这种情况是众所周知的缺陷. 使用专利 "复合尼龙滚轮" 可有出色的防滑性能. In fact, the traditional Aluminum roller is easier to lose control, during Loader operation in rainy day, the major transmission of Loader is lost. This is a well-known. Using patented "Composite nylon roller" provides excellent anti-slip performance.

### 结果/Result: 8 比对 18.33

128 Kg 复合尼龙滚轮 Composite nylon roller

## 动摩擦超越129.125% 比对 铝合金滚轮 Dynamic friction better than traditional Aluminum roller 129.125%

动摩擦测试报告是通过第三方,国际权威检测机构. Dynamic friction test report produced through by the third party of International authoritative testing organizations.
