Greenland's new hub • Baggage handling • easyJet at 30

Winter Services Special

When you know every single traditional aluminum roller produces so much harmful waste, **will you consider using another material?**

**Try our eco-friendly Smart Composite Roller
Innovated for cargo loaders and transfer decks**

No more harmful waste produced by roller Less carbon emitted from extracting aluminium
Lower energy consumption from a lighter equipment Less noise pollution

For JBT / FMC / Weihai Guangtai

OEM part number:

JBT part No. 620-6189-001
TLD part No. 1070088

(Installed in Hong Kong Air Cargo Terminals Limited)

Better for the Planet, Better for You

**No more skidding
in rainy days**

<u>weather</u>	<u>Aluminum rollers</u>	<u>Composite rollers</u>	<u>Friction</u>
Dry	10.33 (N)	16.66 (N), 61% More friction	Average value
Wet	8.00 (N)	18.33 (N), 129% More friction	

**Main Deck loader: 14,200 hours available
Lower Deck loader: 29,000 hours available**

150% more durable than traditional aluminum rollers

↳ **20-40% Cost savings** against Aluminum roller
